

## BURCH STUDIO PHOTO NEGATIVE COLLECTION

This collection of negatives is from the Burch Studio which was in business at the southwest corner of Clinton Avenue and Walker Street in St. Johns, Michigan. There are about 400 envelopes containing negatives for customers whose surnames begin with "B," "C," "D," and "E." However, there are a few other letters represented. Many of the photographs are identified as being graduating seniors in the 1928, 1929, 1930, and 1931 classes. The location of other negatives which must have existed for remaining letters of the alphabet is unknown.

**Note:** In this index the customers' names as written on each negative envelope appear on the left margin. Any additional description discerned from information written on the negative envelope or from examination of the envelope contents is indented.
